

## **We are recruiting a Junior Analyst**

The Smart Energy Demand Coalition SEDCC is the European business association dedicated to making the demand side a smart and interactive part of the energy system. We represent innovative and new business models and market actors from the fields of research, technology, energy supply and services.

You will be part of a dynamic international team in the EU area in Brussels. Your tasks will focus on the technical, economic and regulatory aspects of enabling demand-side flexibility within the European energy system. We offer a 6-month contract with a possibility of a subsequent permanent position.

### **Main responsibilities**

- Support to the SEDCC on technical matters
- Participation in relevant stakeholder groups related to Network Codes and Energy Market Design
- Contribution to SEDCC publications and briefing papers related to the above topics
- Participation in research projects (as part of international consortia)
- Interaction with the SEDCC membership on all relevant topics
- Active involvement in SEDCC Task Forces and Committees

### **Desired skills and experience**

- A university degree in engineering, physics, energy economics or similar disciplines
- At least 6 months of relevant working experience
- Solid knowledge of the energy system in Europe
- Good organisational, networking and communication skills
- Interest in supporting the transition of the European energy system
- Analytical, curious and flexible approach and attitude
- Ability to work independently and as part of a team
- Fluency in written and spoken English, knowledge of an additional European language is an asset
